-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

El ction/R strictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9, drawn to a method of establishing a merchant website for conducting electronic commerce, classified in class 705, subclass 26.
 - II. Claims 10-18, drawn to a method of connecting a first website by a click-through link to a merchant website and at the merchant website for conducting electronic commerce, classified in class 705, subclass 26.
 - III. Claims 19-27, a method of establishing merchant module, a merchant agent module and an online cleaner module at the merchant server, merchant agent server and the cleaner server respectively allowing all the three modules communicating cryptographically to conduct electronic commerce, classified in class 705, subclass 26.

2. The inventions are distinct, each from the other because:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as connecting a first website by a click-through link to a merchant website, which is not required in Invention I.

Similarly, invention III has separate utility such as establishing merchant module, a merchant agent module and an online cleaner module at the merchant server, merchant agent server and the cleaner server respectively allowing all the three modules communicating cryptographically to conduct electronic commerce, which is not required in inventions I and II.

See MPEP § 806.05(d).

Art. Unit: 3625

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter and the search required for Group III is not required for Groups I and II and search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.
4. A telephone call was made to attorney Mr. John K. Park on 4/5/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yogesh C Garg whose telephone number is 703-306-0252. The examiner can normally be reached on M-F(8:30-4:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vincent A Millin can be reached on 703-308-1065. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
